Dear Justin,

I wanted to thank you for the contribution you made regarding bringing clarification to our immigration process. As you know we were in an advanced stage and needed some help to understand how to proceed further. You articulated very clearly and accurately the necessity of what was required from us by the department of immigration which certainly helped me through the process with our existing lawyers. I will be happy to refer anyone to you who is starting the process of immigration or stuck in the process.

Yours sincerely

Pastor Tom Inglis
