

I believe that Mr. Justin Rickard could easily deal with migration problems in corporations big or small, due to his global and multicultural experience and I would have loved to have his calibre on my side during my time working overseas within the corporate environments named above.

Please do not hesitate to contact me should you have any further questions regarding the above.

Kind Regards

A handwritten signature in black ink, appearing to read 'Egbert Buchler', with a long horizontal flourish extending to the right.
